George J. Jetson is a fictional character from the animated television series The Jetsons. He is the patriarch of the Jetson family. He is the husband of Jane Jetson and the father of teenage daughter Judy and son Elroy. George resides with his family and his dog Astro in the Skypad Apartments in Orbit City, in a future with the trappings of science fantasy depictions of American life in the future, such as robot servants, flying saucer–like cars, and moving sidewalks.

The Jetsons is an American animated sitcom produced by Hanna-Barbera Productions. It originally aired in prime time from September 23, 1962, to March 17, 1963, on ABC, then later aired in reruns via syndication, with new episodes produced from 1985 to 1987. It was Hanna-Barbera's Space Age counterpart to The Flintstones.

While the Flintstones lived in a world which was a comical version of the Stone Age, with machines powered by birds and dinosaurs, the Jetsons live in a comical version of the space age, with elaborate robotic contraptions, aliens, holograms, and whimsical inventions.

The original had 24 episodes and aired on Sunday nights on ABC beginning on September 23, 1962, with prime time reruns continuing through September 22, 1963. It debuted as the first program broadcast in color on ABC, back in the early 1960s when only a handful of ABC stations were capable of broadcasting in color. In contrast, The Flintstones, while always produced in color, was broadcast in black-and-white for its first two seasons. Last episode:

75 last "Spacely for a Day“ Haskell Barkin November 12, 1987
